

START HERE - READ ME

1. Please **read SOLAR SYSTEM IMAGER USER MANUAL (PDF file) in the CD**, at least these parts:

- Connecting the imager to the computer
- Attaching the imager on the telescope
- Driver installation
- Basics of using the Solar System Imager software

2. Use **Auto Mode** to control the imager at your **first use**. You need to be more familiar with the properties of the imager before you can optimize with manual control.
